Steven Sampson

AFMC honors 2 Space Vehicles researchers

The Air Force Materiel Command has nominated Dr. Keith Groves for the 2004 Institute of Navigation Captain P.V.H. Weems Award, given for recognition of continuing contributions to the art and science of navigation. An engineer at the AFRL Space Vehicles Directorate's Battlespace Environment Division, Hanscom AFB, Mass., Groves documented ionospheric effects on Global Positioning System navigation and developed real-time sensor-based technology to lessen those effects.

AFMC has also nominated Steven Sampson of the AFRL Space Vehicles Directorate's Space Electronics and Protection Branch for the 2004 Institute of Navigation Norman P. Hayes Award, which recognizes outstanding contributions to the advancement of navigation. Sampson created modernized GPS receiver electronics and motivated investments between the military services, civil government and industry to revolutionize air and space navigation.
